

ergorest

Ergorest Ltd.

- Ergorest was established in 1978 in Finland and is a pioneer and innovator of forearm supports designed. Company is family business.
- Over 30 years of scientific research and product development anchored in a knowledge of the human body have ensured that Ergorest is known worldwide for its high-quality products. We export forearm supports over 20 countries.
- Ergorest is an effective tool in the prevention of a range of complaints and illnesses resulting from computer, office and industrial work.
- While Ergorest can help anyone minimize work-related discomfort and fatigue, it's become an invaluable mobility aid for people with chronic and permanent orthopedic and neuromuscular disabilities
